

## Attitudinal Survey

### My Attitude toward the Environment: Water

Statement	Agree	Don't Know	Disagree
I am willing to turn the water off when I brush my teeth.			
I think there is plenty of fresh water available for us to use.			
I think water is an important resource that we should conserve.			
I am willing to use less water when I take a bath.			
I am willing to take shorter showers to save water.			
I don't think we should let water run when it is not necessary.			
I am not worried about running out of water.			
It makes me sad when I see people use too much water.			
I think polluted water is bad for plants and animals.			
I think it is important to know about the quality of water in my neighborhood.			
I want to know how things living in the water can tell you if the water is clean or not.			
I am willing to write letters to people asking them to help reduce water pollution.			
I think clean water is important for plants, animals, and humans.			
I would be willing to help clean up a stream in my community.			
I would be willing to help monitor the water quality of a stream in my community.			
My efforts to conserve water will make a difference.
