

Mammoth Cave Area

President Report 2007-2008

All of the counties in our Mammoth Cave Area have been busy helping our new adventure, Camp for Courageous Kids. There have been many quilts donated, as they would like for each camper to have a quilt on their bed while at camp. This camp is designed for seriously and terminally ill children. This is a state of the art facility, including a hospital, cottages for the families, a bowling alley, horseback riding and a swimming pool. Many counties have donated money to purchase beds and other needed items. There are homemaker members who volunteer on a regular schedule. It is the goal of the Mammoth Cave Area to continue the much needed support of this wonderful facility.

Our counties have been busy with many community activities including working with local schools and furnishing scholarships for students to further their education, books for the children to share and at the end of the year; the book becomes the property of a student.

Many counties have doubled their Pennies for Friendship; they have held fundraisers for the Ovarian Cancer Research Project; Relay for Life; and have helped local families in need during the holidays. Some counties visit the nursing homes regularly and one county redecorated the senior center in their community.

Counties are working on recycling projects, and have given education on the planting of trees and the effect they have on the environment.

Mammoth Cave Area continues to make our area a better place to live.
