University of Kentucky
High School
Crop Scouting Competition

When:       July 25, 2024
Where:      University of Kentucky Research and Education Center
            348 University Drive
            Princeton, KY 42445

More Information:
Teams of 4-6 students will compete in hands-on, interactive field scouting exercises related to corn, soybean and tobacco rotating through stations focused on:

- Basic crop agronomics
- Pest ID (weeds, insects, diseases)
- Decision making processes for improved crop management

Exercises will be scored, and monetary prizes awarded to the top three teams with the highest scores.

Registration:  DUE April 5, 2024
Space is limited. Only the first 9 teams to register will be accepted for competition. Registered teams will receive study material related to the competition.
